Number of Cats Neutered:	100	Number of Dogs Neutered:	75

Amount Received: \$33,500.00	Amount Remaining (to be returned to MDA): 0
------------------------------	---

### Project Synopsis:

Last Chance Animal Rescue, in conjunction with Help For Pets, provided free spay and neuter to owned pets in low income households in targeted zip codes.

### Project Description:

There are three parts to our program 1) the people, 2) the pets, 3) the pits. The people refers to the income disadvantaged. The pets refer to the ones owned by this targeted segments. We have offered free spay/neuter for the pets of very low income population within specific zip codes. The pits refer to the type of dog most commonly euthinized by the shelters in our area. We have spay/neutered each and every pit bull and pit mix that belongs to a low income family within our targeted low income areas that came to us for help.

### Summary of Approach:

LCAR and HFP have targeted low-income individuals by distributing flyers in government assistance offices, Catholic Charities, food banks and other government and non-governmental organizations that target the income impaired. We have also worked with animal control to target problematic areas.

### Accomplishments:

We have performed 75 canine spay, 75 canine neuters, 200 feline spay and 100 feline neuters.

### Lessons Learned:

We have faced hardship this year that no one could have possibly imagined. Our industry was literally shut down for 30 days and hundreds of thousands of our fellow Americans lost their lives. We have endured in an ever changing world. We have learned that regardless of the state of the world the animals and their owners still need and want help. We are the voice for those who have none and our work must continue.
