

The Prevent All Unwanted Litters Project (The PAWL Project)

Project #
22-7073

County: MD

Number of Cats Spayed: 181

Number of Dogs Spayed: 10

Number of Cats Neutered: 125

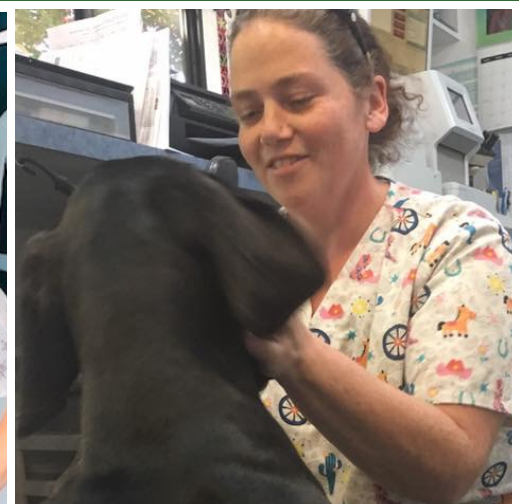

Number of Dogs Neutered: 1

Amount Received: \$17,450.00

Amount Remaining (to be returned to MDA): \$0.00

Project Synopsis:

Our PAWL Project surpassed our initial grant commitment of 280 animals. In addition to this, our organization altered an additional 200 owned cats and 25 owned cats and dogs. We remain committed to reducing our annual intake numbers through targeted spay and neuter and education. We feel optimistic with our steadfast approach and find our sterilization numbers encouraging.

Maryland Department of Agriculture
Spay and Neuter Grants Program

Project Description:

The PAWL Project was intended to target economically disadvantaged pet owners by providing free sterilization to assist in lowering our animal intake numbers and improve live release outcomes.

Summary of Approach:

We marketed the PAWL Project to target audiences and local areas that would benefit and qualify for free spay and neuter services. To date, we have a long wait list of interested parties who are greatly interested in this service in the near future.

Accomplishments:

We have surpassed our target number each year and provided cost sharing as a means to make as great an impact as possible.

Maryland Department of Agriculture
Spay and Neuter Grants Program

Lessons Learned:

We will continue to market our need to local veterinarians to increase the number of canine surgeries we are able to provide. To date, we have relied on several veterinarians to ensure they accommodate our need for dog surgeries only to be met with resistance due to their workload and staff shortages. We will seek more partnerships outside of our County/State to maximize our efforts as this is something plaguing all veterinary resources by no fault of their own.
